tasting notes

The aroma of this beer is fresh, fruity, slightly citrusy with a touch of sweetness. In the mouth the light sweet and caramel shades give way to a drier and refreshing finish. A very well balanced, pleasant beer.food pairing

Cold meats and fresh cheese starters, pasta notesThe ...in primis... beer is the result of the our inaugural, first brew on June 5th 2008, an important date for us! It is available in a special edition of numbered bottles, now a collector's item
